

## AT A GLANCE

**FRITZ H.** had an epoxy floor, but new there had to be something better after he nearly injured himself on the slippery surface. Fritz was searching for a long lasting, durable, removable, professional flooring solution that would compliment his new home. His choice? **SWISSTRAX**

*"It's the first thing you see and serves as a welcome home."*

*"Swisstrax looks good and is functional which will be great for my son and I in our workshop."*

*"Epoxy is a days long process compared to Swisstrax as an hours long process."*

*"I had an epoxy floor. It looked great, but from a functionality standpoint I realized the first time it got wet I nearly busted my tail that there had to be a better way."*

## CHALLENGES

- Needed a better looking floor covering, but didn't want epoxy or paint since they "always fail and installation is a days long process" that his family and builders didn't have time for.
- Safety had to be a top priority.
- Needed a floor solution for his 3 garage spaces that looked great while also being functional.
- Desired something custom that would showcase personality.

## SOLUTIONS

Swisstrax is safe, durable, and adaptable. With different colors and styles, and unrivaled strength any project can match their lifestyle, home, garage or shop.

### BETTER FLOOR COVERING

Swisstrax tiles install in hours, not days. They don't require any hazardous chemicals or specialized equipment, and you can drive on Swisstrax floors immediately after installation.

### SAFETY

With superior drainage and a slip resistant properties, Swisstrax performs better in workshop and garage environments. Liquids don't pool up, they drain and dry.

### FUNCTIONAL

Swisstrax tiles help combat some of the common issues often faced by epoxy coatings including resistance to road salts, hot-tire pick up issues, slip-resistance, and scuffing.
