

ARIZONA FAMILY | BACKYARD MULTI-SPORT GAME COURT

AT A GLANCE

Jesus' family lives in Arizona and has always loved sports. After buying a new home, the family decided to install a basketball & pickleball combination. The goal was to create the backyard of their dreams. It started with Versacourt, and ended with playtime.

"It has been great getting the kids outside and away from the TV screen."

"It has taken the space to a whole other level."

"We'll have friends over and it is great for them to go outside and shoot hoops."

CHALLENGES

- Desired the backyard of their dreams that had more than a concrete pad and grass.
- Wanted something the whole family could enjoy and that would encourage outdoor play and time away from screens.
- Hoped for a multi-purpose court solution and custom event space.
- Needed a professional installation with a strict timeline.

SOLUTIONS

Versacourt is highly customizable, durable, and adaptable. With different colors and game court styles, Versacourt is the ultimate athletic court system for a wide variety of projects.

DESIGN TOOL

Working with a local dealer, VC design tool, and the VC Court Tracker allowed the family to explore options and see the court design before it was built.

CUSTOMIZEABLE DESIGN FIT THEIR SPACE

Not wanting just a concrete pad, the family was able to select from a variety of games and install a space that gave the family an activity to do together.

MULTI-USE SPACE

Versacourt provided a space for kids, family, and friends to enjoy. Not only can basketball and pickleball be played, but other entertainment options are now open to the family.
