

PREMIER INDOOR VOLLEYBALL FACILITY

AT A GLANCE

Vortex Volleyball Club is a premier volleyball club located in Ringgold, GA. dedicated to the training and development of student athletes. Their volleyball facility was in need of new flooring to ensure a safe playing space for their club teams and players of all ages. When wood flooring became too expensive as a solution, VersaCourt won the bid.

"Wood flooring like basketball flooring was just astronomically priced."

"Everybody loves these courts. They love the facility, so it's a home run for me."

"The quality has definitely exceeded the cost factor."

CHALLENGES

- Wanted custom branded courts to promote his business and volleyball club.
- Needed a durable court solution that would hold up to all levels of play.
- Hoped for a flooring solution that was more cost effective than wooden courts.
- Required a set of custom court systems that would fit the existing facility and could be relocated if necessary.

SOLUTIONS

VersaCourt is highly customizable, durable, and adaptable. With different colors and game court styles, VersaCourt is the ultimate athletic court system for a wide variety of projects.

CUSTOMIZABLE DESIGN

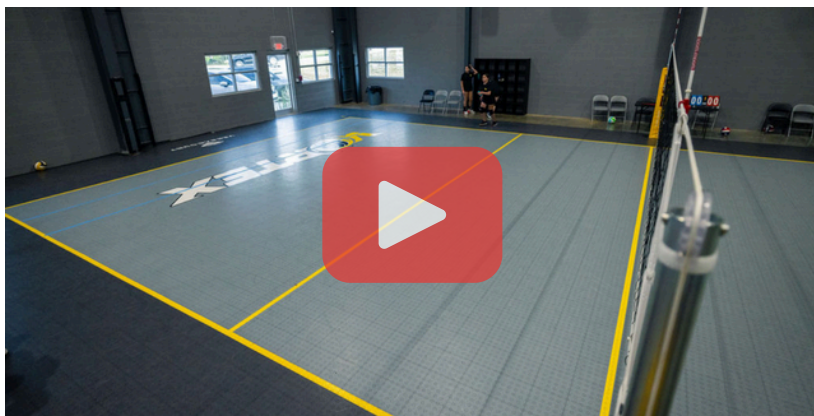

Black and gray Compete Indoor modular VersaCourt tiles were used to perfectly fit the Vortex volleyball facility. The team also incorporated a multi-colored custom painted logo using yellow, black, and white to portray a cohesive brand.

PROTECTION FOR ATHLETES

The suspended surface Compete Indoor tile systems offer slight vertical give and side-to-side movement between the tile, providing forgiveness for players' lower backs, knees, and joints.
